SECTION 2: PROGRAM INFORMATION

2.1 Purpose

The Family First Prevention Services Act (FFPSA) was signed into law as part of the Bipartisan Budget Act on February 9, 2018. This act reforms the federal child welfare financing streams, Title IV-E and Title IV-B of the Social Security Act, to provide services to families who are at risk of entering the child welfare system. Mississippi Department of Child Protection Services is responsible for implementing the federal regulations resulting from FFPSA, managing the Title IV-E State Plan, and administering funding to support these efforts. FFPSA allows states, territories, and tribes the option of using

federal title IV-E funds for prevention programs such as Healthy Families America, offering an opportunity for states to provide services to more families and prevent foster care system involvement.

The Mississippi Department of Child Protection Services is seeking proposals from qualified entities with child welfare experience to implement the Healthy Families America (HFA) program statewide. HFA is a nationally recognized, evidence-based home visiting model that has demonstrated effectiveness in promoting positive parenting, enhancing child health and development, and preventing child abuse and neglect. The purpose of Healthy Families America (HFA) program is to support families, to promote child well-being, and prevent child maltreatment. environments for their children from prenatal development through early childhood.

Healthy Families Mississippi is governed by the standards and process set by HFA National, which include a process to affirm model fidelity and support CQI activities at the site, primarily through a Fidelity Assessment which includes a review of site documentation related to standards, a self-study, and a corrective action process to address any deficiencies identified, and ongoing quality assurance processes. HFA is the signature program of Prevent Child Abuse America (PCA America). HFA's evidenced based model is founded on research, and its critical elements center on consistent service implementation and quality. MDCPS will follow the lead of HFA sites across the nation and demonstrate model fidelity by grounding the work at the local level in the HFA Best Practice Standards. The Best Practice Standards outline 156 standards that sites must adhere to in service delivery: engagement, assessment, home visits, retention, training, supervision, management, and policy. Adherence to these standards is reviewed through Fidelity Assessment and Accreditation cycles to ensure sites are maintaining model fidelity. Every site in the HFA Network is assigned a Training and TA Specialist who supports the site in implementation of sites at the local level.

Applicants proposing to implement HFA must describe how they will adhere to the HFA National process and standards for accreditation. If the applicant is not currently implementing HFA, they must describe the level of communication they've had with the HFA National Office about their readiness to implement HFA's fidelity requirements. Individual communication prior to submitting an application is intended to ensure that applicants do indeed fully understand HFA fidelity requirements and have developed a plan to meet them.

Each child receiving title IV-E prevention services must have a child-specific prevention plan with MDCPS. The child-specific prevention plans will include identified prevention strategy or strategies for the child. It will also list services to be provided to or on behalf of the child to support the success of the identified prevention strategy or strategies. Providers will be required to collaborate with the family and MDCPS to provide relevant information and keep the title IV-E child-specific prevention plan up to date.

Applicants must describe how they will apply a family-centered, culturally competent,

strengths-based approach to prevention service planning with families.

Applicants must meet reporting requirements based on HFA's data points as outlined in (<https://acf.gov/cb/training-technical-assistance/revised-technical-bulletin> [acf.gov]) and Title IV-E reporting requirements in compliance with federal guidelines.

The contractor will be responsible for developing these services to preserve family connections, through evidence-based, voluntary home visiting services that strengthen parent-child relationships, promote healthy childhood growth and development, and enhance overall family functioning. The program helps parents build resources and access community services to foster nurturing environments for their children from prenatal development through early childhood.

- Has extensive experience with the below Core Service Components
- Can provide all Core Service Components of the Healthy Families America program statewide. Please indicate service area(s) in the response.
