This is the nineteenth (19th) edition of the **Alcohol and Drug Prevention and Treatment Resources Directory**. Compiled by the Mississippi Department of Mental Health, Bureau of Alcohol and Drug Services, this directory does not attempt to rate service providers, programs or service areas.

Programs receiving funding from the Mississippi Department of Mental Health are required to be certified according to its *Operational Standards for Mental Health, Intellectual/Developmental Disabilities and Substance Abuse Community Service Providers*. Other programs may voluntarily apply for this certification. Certification by the Mississippi Department of Mental Health may involve the entire service provider or particular programs or service areas (i.e. residential services, DUI assessment, outpatient services, etc.). The majority of the service providers listed in this directory are certified by the Mississippi Department of Mental Health, although some of these providers hold other types of accreditation or certification (i.e. Joint Commission on Accreditation of Health Care Organizations (JCAHO), Commission on Accreditation of Rehabilitation Facilities (CARF), Medicaid, etc.) **Service providers which are certified by the Mississippi Department of Mental Health are highlighted in red.**

Additional information concerning these service providers may be obtained by contacting the provider directly or by contacting the Bureau of Alcohol and Drug Services at the telephone number or address listed below.

ALCOHOL AND DRUG PREVENTION AND REHABILITATION/TREATMENT SERVICES

Service System

The DMH, Bureau of Alcohol and Drug Services, administers the public system of substance use assessment, referral, prevention, treatment and aftercare/continuing care support services for the individuals it is charged to serve. It is also responsible for establishing, maintaining, and evaluating the network of service providers, which includes state-operated facilities, regional community mental health centers, and other nonprofit community-based programs.

The overall goal of the state's substance abuse service system is to provide a continuum of community-based, accessible services, including prevention, outpatient, detoxification, community-based primary and transitional residential treatment, inpatient and recovery support services. The Bureau includes two divisions, the Division of Prevention Services and the Division of Treatment Services.

The Community Mental Health Centers (CMHCs) are the foundation of the substance abuse prevention delivery system. The fifteen (15) regional centers provide a variety of prevention and treatment services. In addition, some centers offer services for specialized populations such as children and adolescents, the elderly, and pregnant/parenting women.

There are also a number of other public and private agencies that provide prevention and treatment services. These entities also provide services for special populations and may receive funding from other state agencies, community service agencies or donations.

DESCRIPTION OF SERVICES

CHEMICAL DEPENDENCY UNIT SERVICES. Inpatient or hospital-based facilities offer services for individuals with more severe alcohol and/or drug problems and who require a medically-based environment. INTENSIVE OUTPATIENT SERVICES. The 10-15 week Intensive Outpatient Program is a community-based outpatient program which provides an alternative to traditional residential treatment or hospital settings. The program is directed to persons who need services more intensive than traditional outpatient services, but who have less severe alcohol and drug problems than those typically addressed in residential treatment. The IOP allows the consumer to continue to fulfill his/her obligations to family, job, and community while continuing treatment. Intensive outpatient services are provided by the following programs. **Services indicated with an asterisk (*) symbol are certified in Intensive Outpatient by the Mississippi Department of Mental Health:**

TRANSITIONAL RESIDENTIAL SERVICES. A transitional residential substance abuse treatment program focuses on the enhancement of social skills needed to lead a productive fulfilling life in the community. The program provides a group living environment, which promotes life free from chemical dependency, while encouraging the pursuit of vocational, employment or related opportunities. With group support, individuals acquire coping skills which enable them to become productive citizens in their community. An individual must have successfully completed a primary substance abuse treatment program before being eligible for admission. Transitional Residential services are provided by the following programs. **Services indicated with an asterisk (*) symbol are certified in Transitional Residential Services by the Mississippi Department of Mental Health:**
