

Resource Parent CPR / First Aid Online Training

Name: _____ County: _____
 Date Videos Viewed: _____
 Date Test Returned: _____ Returned To: _____

Directions: Please go to the website www.ecprcertification.com on any computer with internet access and sound. Once on the homepage, you will click the **red FIRST AID / CPR** button to the right of the page. This will take you to the online training. You will need to read and comprehend all sections in this training. The **TEST** will be provided to you by your Licensure Specialist (you will **NOT** need to take the exam online). This entire video training should take you approximately 2 hour to view. You will then take the test. Please complete this form to ensure that you have met all requirements and submit this form with your completed test to your Licensure Specialist, who will provide you with a training certificate.

You do not have to register to view the training videos. This is a free training, as you are not required by MDHS DFCS to be certified in CPR / First AID, unless you have a body of water on your property. You will receive a certificate of completion from your Licensure Specialist.

Certification Option: If you choose to receive the certification certificate for a cost of \$31.79, you will need to take the online exam following the training and follow the directions for registration and payment. A copy of your certification certificate will need to be provided to your Licensure Specialist.
